

## **TWIN TOWERS APEX & CEYANE AT EMERALD COURT, NOIDA**

**The Twin Towers Apex and Ceyane in Noida are a part of the Emerald Court Project at Sector 93A constructed on land allotted by Noida Authority. The building plans of the Project including the two towers were approved by the Noida Authority in 2009 which was strictly in accordance with the then prevailing Building Bye laws announced by the State Government. No deviation from the Building Plan was made and the Building was constructed after making full payment to the Authority. However, the Hon'ble Supreme Court has not found the construction satisfactory on technical grounds and accordingly issued orders to demolish the two towers. We respect the orders of the Apex Court and are committed to implement the same. We have awarded the work of demolition to a world renowned agency, Edifice Engineering who have expertise in carrying out safe demolition of high-rise buildings.**

**We have completed and given delivery of more than 70000 Units to homebuyers and are committed to give delivery to remaining homebuyers as per schedule time frame. We assure all our home buyers that the order of the Hon'ble Supreme Court will not affect any other ongoing project and all other projects will continue and we are committed to complete construction and deliver the flats to the allottees as per the schedule time.**
